

WALLOPS FLIGHT FACILITY SCOPING MEETING GUIDE

Agenda

Open House	6:00 p.m. – 6:30 p.m.
Presentation	6:30 p.m. – 7:00 p.m.
Question & Answer Session	7:00 p.m. – 7:30 p.m.
Open Forum for Comments	7:30 p.m. – 8:45 p.m.
Wrap-up	8:45 p.m. – 9:00 p.m.

Discussion Guidelines

- Comments will be recorded during the question and answer session and the open forum.
- Please be courteous to others during the open forum.
- All written and oral comments will be given equal consideration during the scoping process.

Written comments may be submitted until May 11, 2009:

WFF Shoreline Restoration and Infrastructure Protection Program
NASA Goddard Space Flight Center's Wallops Flight Facility
Wallops Island, Virginia 22337

The National Environmental Policy Act of 1969 (NEPA) established a national policy to protect the environment by requiring Federal agencies to consider the effects of their actions on the human environment prior to implementing the action and to give the public the opportunity to participate in the planning process. NASA is currently preparing an Environmental Impact Statement (EIS) to consider the potential effects from its Shoreline Restoration and Infrastructure Protection Program (SRIPP). This evening's scoping meeting gives the public an early opportunity to comment and provide input on the EIS for the SRIPP.

Wallops Flight Facility has identified the need to replenish its shoreline on Wallops Island, Virginia to protect important assets that are in danger of being compromised as a result of severe shoreline erosion. NASA and the U.S. Army Corps of Engineers are currently investigating various engineering alternatives for this project which may include beach replenishment and the construction of onshore and offshore hard structures.
